

Seminar series

Bristol 10 years on - What's changed and where are we going?

Wednesday 14th December

10 am to 4.15 pm

Cost - \$50

AMREP Education Centre, Alfred Hospital

Speakers

Professor Bruce Barraclough - Chair Australian Council for Safety & Quality in Health Care, Board of NSW Clinical Excellence Commission, Member of the Executive Board, and Treasurer of International Society for Quality in Health Care, Medical Director Australian Cancer Network, member of multiple Federal and State Government committees and health related organisations and associations.

Assoc Professor Steve Bolsin - Director of Anaesthetics, Barwon Health Steve is well renowned for his pivotal role in identifying quality of care concerns in the Bristol Royal Infirmary

Professor Peter Cameron - Acting Director, Centre for Research Excellence in Patient Safety; Head, State Trauma registry; Chair of the Statewide Emergency Access Reference Committee

Ms Alison McMillan - Manager, Clinical Governance Unit, Department of Human Services

Professor Ken Hillman - Professor of Intensive Care, University of NSW, Area Medical Director, Sydney South West Area Health Service, and Director, Simpson Centre for Health Services Research

Associate Professor Chris Reid - Director, Clinical Centre of Research Excellence in Therapeutics, Monash University

Professor Penny Sanderson - Professor of Cognitive Engineering and Human Factors, The University of Queensland. Fellow of the Academy of the Social Sciences in Australia.

Mr Gill Shardey - Consultant Cardiac Surgeon (MMC)

Professor Richard Smallwood AO - Emeritus Professor, University of Melbourne, Immediate past Commonwealth Government Chief Medical Officer

Professor Michael Ward - Head, Central Clinical Division, School of Medicine, University of Queensland.

Centre for
Research Excellence
in Patient Safety

Bristol catapulted safety and quality to the top of the agenda by targeting a hospital and revealing what, to many, would be their own hospital's vulnerabilities.

In response to growing awareness of the human cost of medical error, organisations were established within Australia and internationally to develop a comprehensive approach to improving patient safety. In Australia, the Australian Council for Safety and Quality in Health Care (ACSQHC) was established to lead national efforts to improve the safety and quality of healthcare.

So what have we learned, are we safer today than we were ten years ago and what does the future hold for the quality and safety agenda?

Program

10:00am Professor Peter Cameron

Welcome

10:15 am Professor Bruce Barraclough

Highlights, lessons learned and the future of quality and safety - and an update on the transition to the new Commission.

11:00 am Professor Richard Smallwood

Brief reflections on safety and quality of care.

11:20am Professor Michael Ward

Bundaberg - Pathogenesis and consequences

12:00-12:40 - Lunch

12:40 Assoc Professor Steve Bolsin

What has changed as a result of Bristol? Where should we be focussing our attention? How can safety and quality be measured and monitored at a clinician level?

13:10 Associate Professor Chris Reid, Mr Gill Shardey

What does the Cardiac Surgery Registry have to contribute to safety and quality? How does this registry differ from the one in place in Bristol Royal Infirmary? What does it capture and what outcomes are being achieved?

13:40 Ms Alison McMillan

Sentinel event reporting- why these indicators? What has been achieved since its inception in Victoria? What are some key outcomes that have occurred as a result of reporting? What does the future hold?

14:10-14:20 - Afternoon tea

14:20 Professor Ken Hillman

Acute hospitals. How should they look in the future? Designing care to best meet community needs.

15:20 Prof Penny Sanderson

What is human factors engineering?
How can human factors engineering help deliver safer care?

15:40 Panel discussion.

What should our healthcare system focus on? Would we detect another Bristol?

16:10 Close

To register and pay online - go to <http://ecommerce.med.monash.edu.au> and follow the link for seminars.

Payment by cheque - fill in the form below and mail to CRE workshop, Epidemiology & Preventive Medicine, Monash University, Alfred Hospital, Melbourne 3004.

Please make cheques out to Monash University.

Please keep a copy of this document as a tax invoice / receipt - Monash University ABN 12 377 614 012
